Conducted Sports to Staff and Students

Sports stimulate the physical and mental growth of a child. A person who regularly plays sports develops a healthy body, develops better body strength and better coordination. The physical benefits also include maintaining a healthy weight, preventing chronic diseases and learning the skills necessary to maintain a healthy lifestyle. The enhancement of physical and mental development of children is certainly the most important contribution of sports, but the list of values a child may acquire through sports does not end here. The positive aspects are numerous, which reveals the true beauty of sport.

On behalf of “National Sports Day”, sports have been conducted in Kandula group of colleges. On the occasion of that several games were held like Kabaddi, Throw ball, Volleyball, Cricket, Shot put, Discus throw, Throw ball, Musical chairs, Javelin throw, Lemon and spoon, and Tug of war for students and staff, in which students and staff participated enthusiastically and competed with one another for prizes. On sports day, the winners were given prizes by honorable M.D Dr. K. Chandra Obul Reddy at KOR auditorium.

Eco-Friendly Ganesh Idols

Vinayaka Chaturthi is a festival which is celebrated all over India to worship Lord Vinayaka, is becoming more eco-friendly nowadays. Generally, Vinayaka murtis are made of Plaster of Paris, are immersed in water after Vinayaka Chaturthi, which harms the water bodies. Many of the people are practicing the eco-friendly Idol during Vinayaka Chaturthi. Being responsible citizens we can accomplish something for our environment Plaster of Paris is non-biodegradable made of poisons and unsafe colors and it severely pollutes the sea-going life and water bodies. To spare and secure our nature, we should hold hands and do our bit, and go for eco-friendly items. Numerous campaigns are performed to make awareness on conserving the environment through different mediums such as “it saves our water resources”, “it protects human health”, “it is easily available”, “preserves the quality of soil” and “brings the people together”.

Therefore KLMCEW students and staff prepared two eco-friendly Vinayaka Idols with locally available soil, leaves and flowers. These eco-friendly Vinayaka idols preparation has shown a closed communication and idea sharing among the students and staff. Principal Dr. M.V. Rathnamma gaaru encouraged the students and staff.
